Subject: Air Monitoring Plan
Importance: High

Good morning,

Please see attached air monitoring update. Please be advised that our Liberty County HazMat Team escorted by Weston personnel received some hits for H2S and VOCs at their sample locations. This may indeed be the result of some well heads and decomposing vegetation in their monitoring zones, keep in mind the majority of their monitoring area is adjacent to the flood plain. During their next air monitoring cycle they will confirm these hits for H2S and VOCs.

Respectfully,

Toryus K. Brantley
